

# INTRODUCING NINICHI AND XELAFISH

SCENARIO DRIVEN MID-GRADE MUSIC FOR PIANO AND VIOLIN

## OVERVIEW - WHAT IS NINICHI AND XELAFISH?

Ninichi and Xelafish are pseudonyms for Nisa and Alex who are a professional composer and a visual creative that both love playing piano and violin together as a hobby! Together we have formed a creative partnership to create sheet music collections for mid-level piano and violin players that are context and scenario driven - often setting up a purpose or situation that plays out in the piece.

The need for this music came out of our own drive to play something different to what existed out there. We hope that in an age of competing against smart phones and playstations, these collections can offer a fun, mischievous and interesting hook to developing players. Particularly at a point in learning where some may decide to continue or quit to pursue other interests - we hope to offer collections that encourage sticking with the instrument!

There is a timeline split to this project! The Ninichi and Xelafish sheet music shop is set in an alternate reality 1890, London where spells are cast not through spoken word and wands, but through Melodic Enchantments created by skilled composers to alter the fabric of reality. One such enchantment has opened up a portal into 2019 allowing communication to be possible and a 2019 launch achievable across time, space and reality...

## THE NINICHI AND XELAFISH MISSION

*Our aim is to bring fun  
playable, story driven and  
melody-led music to the world*

*We'd like musicians and non-musicians alike, to  
enjoy the power, fun and mischief of context driven music*

*We would love to help encourage people who may not have picked up  
their violin or sat by their piano for a long time to perhaps  
rediscover their love for music through ours*

*We want people who are learning, to  
be encouraged and inspired to stick  
with it & we're hoping to offer them  
a way to connect with music at a  
deeper level*

*We believe that our music, set in  
our carefully crafted world of  
Melodic Enchantments and Portals  
with a Progressive story, offers  
something truly unique*

*We also want more experienced  
musicians to enjoy what our music  
has to offer, enjoying playing it with  
others too, & to be able to return  
to it time and time again*

*We would love our world to help  
fuel people's imaginations and their  
passion for music. We want them to  
have fun with it and to feel what we  
feel when we play our music together*

*We also have plans to release many more sheet music sets and arrangements  
for more instruments that will continue to build out this world and offer  
more music for people to enjoy. With your help we would be able to  
make this happen and to create and distribute much more  
music for people to play, perform, share & listen to  
for many generations to come*

## THE LIGHT AND THE DARK - THE FIRST COLLECTION

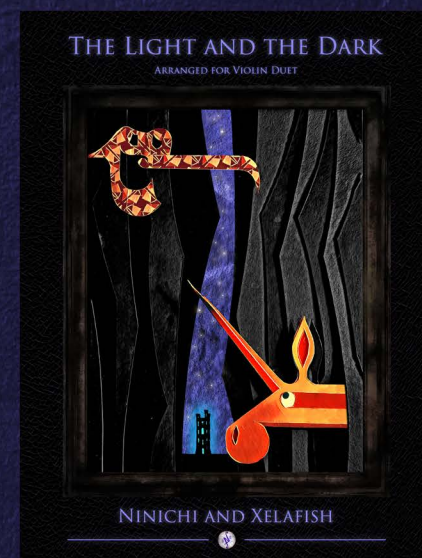

Ninichi and Xelafish will launch a 5 week Crowdfunder on 7th October 2019 to raise funds to release the first collection 'The Light And The Dark'. Should the campaign be successful we intend on developing over the next year PDF and Printed arrangements of the 15 pieces for **Piano Solo**, **Violin and Piano**, and **Violin Duet** as well as releasing a 4 track Live EP and a narrated Audiostory of the Fable all to be released in late 2020.

## THE MAGIC OF MAKING MUSIC - THE N&X CAMPAIGN

Creating a new hub for releasing themed sheet music collections is an ambitious project though one we are very excited about! We hope it will offer some individual sets of music that will mesh well with what else is available and bring variety to practice, playing for pleasure or playing socially.

We appreciate greatly any support and spreading the word to anyone who may be interested so that when we release the campaign and campaign video on 7th October we can reach the widest audience.
